***Are you a landholder in North East Victoria?
Would you like to know more about high threat weeds to watch out for?
Would you like to learn about different control methods?***

Come along to our lunchtime weed webinar!

This short, informative webinar will cover the basics...

- What is a weed and what makes it highly threatening
- What are the common high threat weeds in North East Victoria
- What control options are available and what are the pros and cons of different methods
- What information is available for landholders to upskill and feel more confident in tackling weeds

If you have experience with weed control, come along and share your knowledge with others. This webinar will be interactive to help landholders connect in controlling high threat weeds.
